Hello Mr. Rice:

This is José Eduardo Torres, I work at EPA, Region 6 and am currently reviewing technical information on the Kingsville Dome uranium mining site operations, which has been provided to us by Kleberg County citizens. I have a copy of a report on these operations that you prepared in 2006, and also of a related report that you prepared in 2012. I have attached a copy of what was identified as Figure 4 in the latter, and would like to know if you might be in a position to share with us the raw data that were used to prepare this Figure 4.

I am assuming that those data may consist of lab reports indicating the dates on which the samples were collected and analyzed. I am seeking to compare the dates the above water samples were obtained to the dates on which the MW fluid level data that you discuss in your report of February, 2013 were obtained. I would also appreciate it if you could also share with us the above referenced raw fluid level data.

Thank you very much for your attention in this matter. I look forward to your feedback, one way or the other. Best regards,

José Eduardo Torres - 6WQ-SG
